**Subject:** RE: Meeting

Mr. Brincat,

Following our meeting on site, please find summary of all points, including action taken and targets. I have also spoken to Mayor Margaret by phone regarding the below.

- '0458 - il-fanal li kien hemm ma nafux x'sar minnu u spicca dustbin.' This is pending at Enemalta. Enemalta are aware that they need to replace decorative pole. I have sent another email this week as a reminder. Contact person: Ing. Chris Bonnici.
- '0454 - il-konok tas- sigar ghandhom jew isirilhom xi gradilja fuqhom jew toghla l-kurduna minhabba li meta tkun ix-xita qed titkaxkar hafna hamrija.' This has already been instructed to original contractor Bonnici Bros way back. As I explained during the meeting, TM together with DOC are tackling this issues (including other issues) with contractor.
- '0459 - meta tkun ix- xita ma tkunx tista tghaddi mir- rampa minhabba li tkun merqa fl- ilma - Suppost ghidtli li ser titranga.' Works on site have been carried out according to proposed plans and to retain existing levels. Therefore this matter cannot be solved in its entirety. Having said that, with the insertion of 'pedestrian bridge' noted in point 0461 below, situation will be improved. WORKS COMPLETED.
- '0446 - kellha titnehha din il- parti tar- railing halli jekk ikun hemm l- ilma jkunu jistghu jghaddu n-nies ahjar.' The removal of this section of railing is unsafe for pedestrians since we will be encouraging pedestrians not to cross from the pelican crossing location.
- '0461 - hawn trid isir bankina / tipo ta' bridge - Suppost ser isir minn kuntrattur iehor u ghandkom tikkomunikaw maghna biex naraw xl- ahjar li isir.' WORKS COMPLETED.
- '0464 - iridu isiru 2 fanali - Suppost ghidtli li qeghdin ghal- approval tal -finanzi.' As per our meeting, it is confirmed that financial approval for supply of decorative lighting was committed this week. I will coordinate with supplier and electrical contractor to install asap. Will speak also to Mayor Margaret regarding this point.
- 'Fejn il- Marina home isir zebra crossing mghollija biex l- ilma ta' Qrejten Str ma jostakolax lin-nies li se jaqsmu - Suppost ghidtli li ser isir minn kuntrattur iehor.' Works to commence by contractor. These were not part of the original tender and therefore additional quotes and approvals were needed.
- 'zebra hdejn l- ghasa biex ticcaqlaq ghal iktar il- fuq. ghandha ticcekken il- bankina minnhabba li tal- linja.' Kindly speak directly to TMRSD (Perit Testaferrata De Noto) regarding this issue.
- 'Il- pelikan lights ta' quddiem il- Kunsill ok jahdmu biss baqa l-arbli l- antiki. Dawn ghandhom jitnehhew.' WORKS COMPLETED.

- 'Il- belisha lights ta' hdejn il- Marina ghadhom ma jixghelux.' To coordinate this with Enemalta regarding meter.
- 'Il- un/loading bay li hemm f' Xatt l- Msida ghandha tinbidel postha biex tkun iktar centrali.' Kindly speak directly to TMRSD (Perit Testaferrata De Noto) regarding this issue.
- 'Installation of bollards near recently constructed pedestrian bridge and shifting of Merhba Msida sign' – To be installed by end of next week by Grima & Sons. These were not part of the original tender and therefore additional quotes and approvals were needed.

Julian
