Notes to the Financial Statements for the year ended 31 December 2015

1. General Information

The Munxar Local Council is the local Authority of Malta set up in accordance with the Local Councils Act, 1993. The office of the Local Council is situated at Triq Profs Guze Aquilina, Munxar. These financial statements were approved for issue by the Council Members on 26 April 2016. The Local Council's presentation as well as functional currency is denominated in €.

2. Accounting Policies and Reporting Procedures

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Accounting convention

These financial statements are prepared under the historical cost convention, as modified to include fair values where it is stated in the accounting policies below. These financial statements are prepared in accordance with the provisions of the Local Councils Act Cap. 363, the Financial Regulations issued in terms of this Act and the Local Councils (Financial) Procedures 1996 enacted in Malta and with the requirements of the International Financial Reporting Standards as adopted by the EU.

These financial statements have been drawn up in accordance with the accounting policies and reporting procedures prescribed for Local Councils in the Financial Regulations issued by the Minister of Finance in conjunction with the Minister responsible for Local Government in terms of section 67 of the Local Councils Act (Cap. 363).

New and amended standards adopted by the Local Council

During the year under review, the Local Council has adopted the following International Financial Reporting Standards as adopted by the EU:

On 21 November 2013 the IASB published narrow scope amendments to IAS 19 Employee Benefits entitled Defined Benefit Plans: Employee Contributions (Amendments to IAS 19). These amendments apply to contributions from employees or third parties to defined benefit plans. The objective of the amendments is to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. The amendments are effective from 1 July 2014 with earlier application permitted.

In December 2013, the IASB issued Annual Improvements to IFRSs 2010-2012 Cycle, a collection of amendments to IFRSs, in response to eight issues addressed during the 2010-2012 cycle. The amendments reflect issues discussed by the IASB during the project cycle that began in 2010, and that were subsequently included in the exposure draft of proposed amendments to IFRSs Annual Improvements to IFRSs 2010-2012 Cycle (published in May 2012). The issues included in this cycle are: Definition of 'vesting condition' (IFRS 2); Accounting for contingent consideration in a business combination (IFRS 3); Aggregation of operating segments (IFRS 8); Reconciliation of the total of the reportable segments' assets to the entity's assets (IFRS 8); Short term receivables and payables (IFRS 13); Interest paid that is capitalised (IAS 7); Revaluation method – proportionate restatement of accumulated depreciation (IAS 16 and IAS 38); a Key management personnel services (IAS 24). The amendments are effective for annual periods beginning on or after 1 July 2014.

Notes to the Financial Statements for the year ended 31 December 2015 (cont.)

Accounting Policies and Reporting Procedures (cont.)

In December 2013, the IASB issued Annual Improvements to IFRSs 2011-2013 Cycle, a collection of amendments to IFRSs, in response to four issues addressed during the 2011-2013 cycle. The amendments reflect issues discussed by the IASB during the project cycle that began in 2011, and that were subsequently included in the exposure draft of proposed amendments to IFRSs Annual Improvements to IFRSs 2011-2013 Cycle (published in November 2012). The issues include in this cycle are Meaning of effective IFRSs (IFRS 1); Scope exceptions for joint ventures (IFRS 3); Scope of paragraph 52 (portfolio exception) (IFRS 13); and Clarifying the Interrelationship of IFRS 3 Business Combinations and IAS 40 Investment Property when classifying property as investment property or owner-occupied property (IAS 40). The amendments are effective for annual periods beginning on or after 1 July 2014.

New standards and amendments not yet effective and not yet adopted by the Local Council

The following standards and amendments to existing standards have been published and are mandatory (as applicable) for the Council accounting periods beginning on or after 1 January 2016 or later periods, but the Council has not early adopted them:

IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS 9 was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortised cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the IAS 39 requirements. The Council is yet to address the full impact of IFRS 9 and intends to adopt IFRS 9 subject to endorsement by the EU, no later than the accounting period beginning on or after 1 January 2018.

IFRS 15, 'Revenue from contracts with customers' deals with revenue recognition and established principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS18 "Revenue: and IAS11 'Construction contracts' and related interpretations. The standard is effective for annual periods beginning on or after 1 January 2017 and earlier application is permitted, subject to endorsement by the EU. The Council is assessing the impact of IFRS 15.

On 12 May 2011, the International Accounting Standards Board (IASB) issued IFRS 11 Joint Arrangements. IFRS 11 Joint Arrangements classifies joint arrangements on the basis of their substance by focusing on the rights and obligations of the arrangement, rather than its legal form (as is currently the case of IAS 31 Interests in Joint Ventures). Under IFRS 11, joint arrangements are classified as joint ventures or as joint operations. Joint ventures are accounted for using the equity method of consolidation since the use of proportionate consolidation for such arrangements has been eliminated. Joint operations are accounted for in a manner that is similar to the current accounting treatment applicable for jointly controlled assets and jointly controlled operations. IFRS 11 supersedes IAS 31 Interests in Joint Ventures and SIC-13 Jointly Controlled Entities-Non-monetary Contributions by Ventures. At the same time, the IASB issued a revised version of IAS 28 Investments in Associates and Joint Ventures. The new and revised Standards are applicable for annual periods beginning on or after 1 January 2014, with earlier application being permitted. However when endorsing these Standards the European Union has allowed that these become applicable for annual periods beginning on and after 1 January 2014, with earlier application being permitted.

Notes to the Financial Statements for the period ended 31 December 2015 (cont.)**Accounting Policies and Reporting Procedures (cont.).**

The Councillors and Executive Secretary are assessing the impact that the adoption of these International Financial Reporting Standards will have on the financial statements in the period of initial application. The Council anticipates that the adoption of other International Financial Reporting Standards that were in issue at the date of authorisation of these financial statements, but not yet effective will have no material impact on the financial statements in the period of initial application.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses to date. Depreciation is calculated on a monthly basis using the reducing balance method at rates calculated to write off the cost less residual value of each asset over its expected useful life as follows:

	%
Land	0
Trees	0
Buildings	1
Office Furniture and Fittings	7.5
Construction Works	10
Urban Improvements (Street Furniture)	10
Special Projects	10
Office Equipment	20
Motor Vehicles	20
Plant and Machinery	20
Computer Equipment	25
Plants	100
Litter Bins	Replacement basis
Playground Furniture	100
Traffic Signs	Replacement basis
Road Signs	Replacement basis
Street Mirrors	Replacement basis
Street Lights	100

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit. The residual values and useful lives of the assets are reviewed and adjusted as appropriate, at each statement of financial position date. The carrying amount of an asset is written down immediately to its recoverable amount if the carrying amount of the asset is greater than its estimated recoverable amount.

Subsequent costs are included in the carrying amount of the asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the council and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Comprehensive Income during the financial period in which they are incurred.

Impairment of Assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation or depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of the fair value of the asset less costs to sell and the value in use. Impairment losses are immediately recognised as an expense in the Statement of Comprehensive Income.

Notes to the Financial Statements for the period ended 31 December 2015 (cont.)

Accounting Policies and Reporting Procedures (cont.)

Amounts receivable

Amounts receivable are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment. A provision for impairment of amounts receivable is established when there is objective evidence that the Council will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is the difference between the carrying amount of the asset and the present value of the estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the Statement of Comprehensive Income.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost, any difference between the proceeds and the redemption value is recognised in the income and expenditure account over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Local Council has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date.

Other payables

Other payables are classified with current liabilities and are stated at their nominal value unless the effect of discounting is material in which case other payables are measured at amortised cost using the effective interest method.

Financial instruments

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions of a financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Financial assets and financial liabilities are measured initially at fair value plus transactions costs. They are measured subsequently as described below.

Financial assets

For the purpose of subsequent measurement, financial assets of the Council are classified into loans and receivables upon initial recognition.

Receivables are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All income and expenses relating to loans and receivables are presented within 'finance income' or 'finance costs', except for impairment of receivables which is presented within 'administration and other expenditure'.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition these are measured at amortised cost using the effective interest method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial. The Council's other receivables fall into this category of financial instruments.
